

A Day with Rosie-Freebie Daisy  
Design Color Sequence Chart

**IMPORTANT INFORMATION-PLEASE READ:**

Different embroidery software will sometimes assign default colors to the embroidery designs and also create different numbers of color stops or changes. Sometimes the colors that the software assigns do not match the color sequence that was provided for you. This is something that is beyond my control. It is best to disregard your computer screen and work with the color sequence that is provided for you in a PDF on the enclosed CD.

The colors and brand of the embroidery threads below are what I have used for this design. I used Mettler Poly Sheen thread. Below are the color numbers by Mettler. I have also given each color a name so that you could see the shade of the colors.

---

1. Leaves-Light Green-#5650
2. Flowers-Light Purple-#3040
3. Flower Centers-Medium Purple-#2830

Design Size: 3.90" Wide x 1.71 High
