**APPLIQUE INSTRUCTIONS**

Please note that Buzz Tools change the names of the colors to be used to differentiate between the different stages when you appliqué.

Make sure you adhere to the attached color chart when you stitch out the appliqué designs.

Always remember to test stitch any design. Especially when you want to create something different.

All the designs are digitized so that the appliqué design will be trimmed in the hoop.

1. Hoop material to be appliquéed and attach stabilizer.
2. An outline will be stitched to indicate the position of the appliqué pattern.
3. Remove hoop from machine, and without taking material out of hoop attach material to be used for appliqué.
4. To create a different look, two layers of 130 gsm batting can be placed underneath the material. The material must be pulled tight and pinned to the hooped material.
5. An outline will be stitched to indicate the trim line amongst which the material must be trimmed.
6. Remove hoop again from machine and trim material as close as possible to trim line.
7. Attach hoop to machine.
8. The trimmed material will now be tacked down.
9. The satin outline will now be stitched.

Each stage will be indicated on your machine in a different color.
